### Our Chain Tools & Accessories

**Connecting and Detaching Tools:** essential for anyone working with chains. These tools are designed to simplify the process of assembling or disassembling chains, saving you time and effort. Compatible models for these tools include:

**#25, #35, #40, #41, #50, #60, #420, #415, #415H, #428H, #520 & #530**

**#60, #80, #100, #120, #140, #160, #180, #420, #425, #428, #525 & #530**

**Offset Links:** When you need to adjust the length of your chain by an odd number of pitches, our Offset Links (half-links) provide the perfect solution.

**Connecting Links:** All our chains are sent with master links, but, to make your assembling process easier, we also work with bundles.
